## ABOUT

Currently studying Android development at Epicodus in PDX. I am looking to leverage my previous work experience in fields that require being detail oriented and logical with my innate creativity and focus to create functional, fun and feature-rich software

## EDUCATION

EPICODUS | JAVA/ANDROID TRACK  
2017 - 2018

- 40hrs a week of pair programming. Learning to work through new languages and challenges using behavior driven development and self directed trouble shooting.

PORTLAND STATE UNIVERSITY | BIOLOGY  
2007 - 2010

- Received a Sigma Xi grant to sequence mitochondrial DNA. Learned to study in a technical field and use precise methodologies.

WILLAMETTE UNIVERSITY | MUSIC  
2004 - 2006

- Member of Mu Phi Epsilon and performed with five different ensembles. Pursued studies in composition, performance and education.

## PROJECTS

SPOT-A-BAND

- This is a java web app that connects Spotify and Ticketmaster APIs

SOLAR SYSTEM VOYAGE

- Simple static website built with javascript and jQuery
